# new publications class attracts dedicated crew to assemble yearbook

**"revolution" in the making** — members of the publications class attend to individual assignments amidst chaos — to create greatness.

**behind every page of aegis**, there are dozens of talented workers. co-ordinating her efforts with the rest of the staff, designer gail taylor helps to make aegis '70 come alive.

**a real crowd pleaser** — an aegis '70 picture sale finds support among self-admiring elhs students. most photos were taken by co-editor bill creighton and publications teacher mr. richard stenta.

# kerson heads one semester journalism course for aspiring writers

**reporters of tomorrow** — members of the journalism class examine professional newspaper writing from their only "textbook", the *new york times*. the new elective course included a study of writing styles, a trip to hartford, conn., and a public relations campaign.

**time out** during a typically busy day for mr. irwin kerson. one of the most active members of the faculty, mr. kerson handled english classes, all public speaking courses, and initiated a new journalism study, while still finding time to be advisor for the "spartan spirit."

## THE REPORTER

A JOURNALISM CLASS PUBLICATION

a **pollution** publication, "the reporter" was compiled by the journalism class to supplement earth day materials. the edition contained editorials by the class as well as a school opinion poll.

roles reversed — robert ireland and andrew malloy are "profs" of baroque music. student presentations of this sort spark provocative discussions.

books are only part of it: the inquiry approach through discussion and av materials provide the special magic of humanities. mr. richard stenta raps with bill creighton about "things."

# seniors explore man and his ideals in new humanities course

**mirrors of renaissance man** — student performers, bob ireland, andy malloy, bob reis, dave hansen, and bob driscoll bring florentine music back to life.

**the wit and wisdom** of dr. kenneth winetrou of a.i.c. comes to an e.l.h.s. classroom. mc luhan's theories of media were the message for a combined humanities class.

seniors specialize in science  
pursue knowledge of human body in physiology

"right you are!" — mr. richard burns, a umass math intern triggers a new understanding of geometry.

knowledgeable and respected, mrs. adeline wilk chawks some of the basics of core math.

the best of both worlds in core:  
efficiency in lectures; individual help sessions

sky-writing a formula is pam cushman during a (mr.) richard burns geometry lecture. individualized attention will clarify the obscure later.

this is efficiency! lectures disseminate facts quickly in the four basic sophomore core subjects: geometry, biology, english, u.s. history.

it's a new thing —  
a new education  
of scheduling and teaching,  
of learning . . . and being.  
it brings responsibility  
to one hundred . . . and to one.  
it has students  
and teachers  
building a new relationship  
of people and subjects.  
it's a groovy  
kind of thing. it's core.

**not for the squeamish** — second semester core intern, mr. george van deusen, taps open a "pickled" frog jar for cheryl pasquale in preparation for a lab experiment.

just a bit camera-shy, first semester biology intern, william estes, is distracted from his help session by homeroom antics.

with the big-hearted overseer observing, core students prepare instruments for a dissection lab: jacqueline aiken, john bonin, mark hammond, janet anderson and jennifer campbell.

**core's cameraman** bob ayers abandons paper for film while working on his english project. his objective is to record the many happenings of core.

foreign gourmet delights — some main attractions of international night are taste-tested by the connoisseurs of the language department.

**satisfying their sweet tooth** — these late-summer fair-goers sample wisps of cotton candy while strolling down a swarming expo midway.

**a happy ending** is just a beginning — **core** members bid their interns mr. alan ladd and mr. george van deusen a fond farewell at a special core party, as they end their terms of practice teaching.

**senior men**, proud and happy watch long-winded tom mineo quench the flame on his birthday cake at the post-season football banquet.

**betting on beauty**, warren gourley offers his monetary judgement in the beautiful baby contest sponsored by the freshman class, with some advice from joanne walsh and brenda rolfe. el's baby beautiful was "little" john favarato.

**" . . . but will it work in the field?"**, pat burr, debbie anders, bev stockwell, kathy brega, and assorted "experts" combine ideas and creativity for pep rally posters.

**in all their dimpled glory**: william marazzi, marc maserati, john favarato, felix tranghese, thomas mc cabre, james manferdini, michael donohue, donald thomas, michael keane

## good times are where you find them

**master masons** of the design and structures class bob mc collum and joe stranch make practical use of shop knowledge under the direction of mr. william reagan. the dugout will house the spartan baseball team.

**"most popular hangout"**: friendly's caters to the appetities and discriminating tastes of basketball fans.

**back to nature** — students retreat to the shade of the courtyard, a good place to sit around and unwind during a study or lunch.

# knowledge bound students on mind-expanding trips

visitors from england; elhs students to concord, hartford, lexington, nyc, west springfield, maryland, new rochelle

**far from home** — the differences of the american educational system surprise and delight these two english co-eds, brenda fisher and brenda brown.

**"waiting for godot"** to begin, sandy andrews, jane viveiros, janice breen and eleanor ramey exchange thoughts. students who crave culture enjoyed tripping to stage west.

**a moment of silent reflection** brings to mind a flood of thoughts from 200 years ago on lexington green. students from the humanities and u.s. history classes walked the ground of history at the old north bridge, walden pond, and the antiquarian museum.

**exhaustion personified** — the end of a three day decision-making work session in cambridge, maryland where the \$13,000 aegis '70 was born. attending were mr. don lendry, mr. richard stenta, bill creighton, sue mc gill, jean bonin, mike keane, carol van wagner.

**the largest cathedral** in the world, st. john the devine, was the first stop of an exciting day in new york city for two humanities classes. mr. richard stenta and miss jeanne perkins guided three dozen

students to the u. n., museums, lincoln center, central park, and a chinese restaurant; a 12 hour itinerary punctuated with subway rides.

**blue-eyed soul** — craig white, bill sharon, and ken langdon of the temple poured out a heavy sound. as the audience dug their performance, the temple came on with the sound of james brown and wilson pickett.

**a christmas memory** — the chorus, directed by mr. john cheney saluted the christmas season in a special concert. the selections from favorite yuletide carols and songs left a deep impression on an appreciative audience.

# getting it together with the sacred and the profane

audiences turn on to  
the temple  
christmas, awards, and elections

**cited for outstanding play** by hockey coach tarsa at the winter sports assembly were mike donohue and steve mc hugh. the assembly allowed faculty and students to express appreciation for the fine winter sports season.

**promises, promises, promises** — constructive planning for the future in elhs. john stolecki and others presented progressive ideas in their senior election speeches to the class of '70.

**on the air** — radio personality bob de carlo, originator of WDRC's "black cloud award", voiced opposition to pollution.

**"you can ask questions, you can be informed"** — members of mr. bunce's earth science class paraded noisily against pollution.

**every litter bit hurts** — our student government organized a school clean-up campaign, and later a town-wide effort to "ease the pain."

**the uncompromising concern** of mr. gary bunce stimulated the earth day activities which climaxed weeks of hard work and planning.

**the war!  
our earth!  
these were  
the days of  
our concern**

"come on people, smile on your brother" — mr. richard grover and mary johnson add musical philosophy to elhs moratorium activities.

is anybody listening? — chris decker and other anti-vietnam war students vocally denounced the war at the october 15 school moratorium.

## a look of concern

drugs, careers, curriculum are topics aired at  
informative sessions

**a future career in medicine?** — the endless possibilities in the field are brought to the attention of mark botta and john de vall by mrs. medbury and the medical information van.

**what's it all about?** — parents discover teaching techniques and curriculum from mrs. allard at the semi-annual parents' night.

**scientists search for a formula** to solve the problems of science curriculum in elhs. many good suggestions were made, among them a

recommendation to guidance that heads of departments be present when underclassmen are introduced to new courses.

turning on to the drug problem, faculty members and students exchange ideas. birchland park and elhs both participated in a drug abuse workshop as a means to bring the drug scene into focus.

grass — pro or con? — jean cunningham presented a pro view towards legalizing marijuana. mr. kane's frosh civics classes debated the issue and voted against legalization.

# vistas of man's world revealed by guest speakers

religion and love, communications and engines are  
diverse subjects of interest for hundreds of students

another side to the many facets of religion is presented by Elder Southworth in a discussion of the mormon religion for junior school students

a pacifist wages a verbal war — Mr. Russell Johnson, speaker from the American Friends Society, presents facts and opinions in his denunciation of American policy in southeast asia

the internal complexities of the diesel engine are explained to inquisitive students by Mr. Robert Spaulding of American South in a side show and question answer session

the message and the media is discussed by Dr. Bernard Spaulding. He has delved into the theories of Marshall McLuhan, the human condition

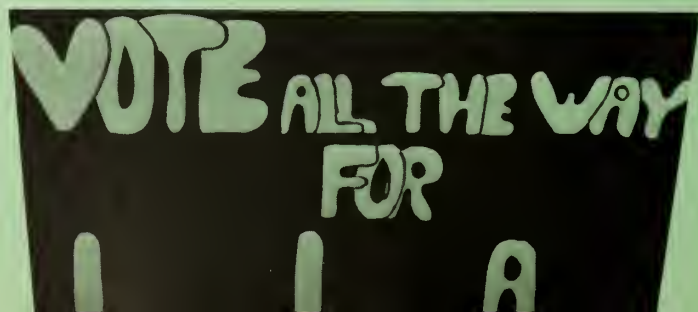

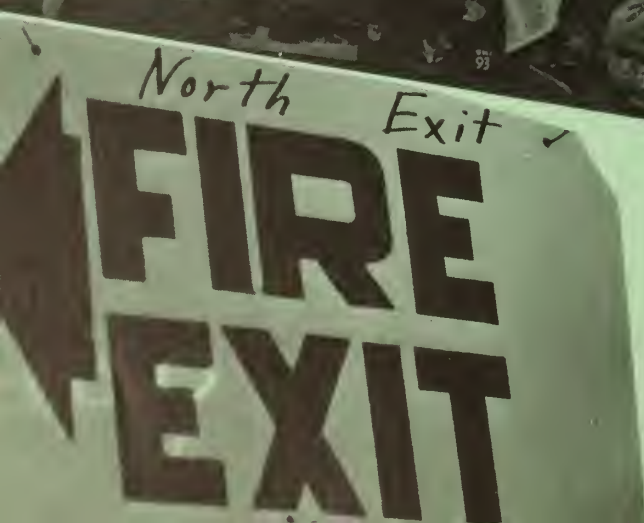

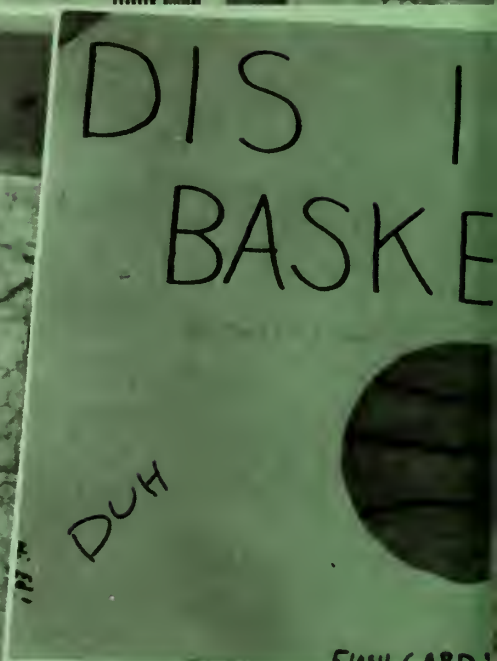

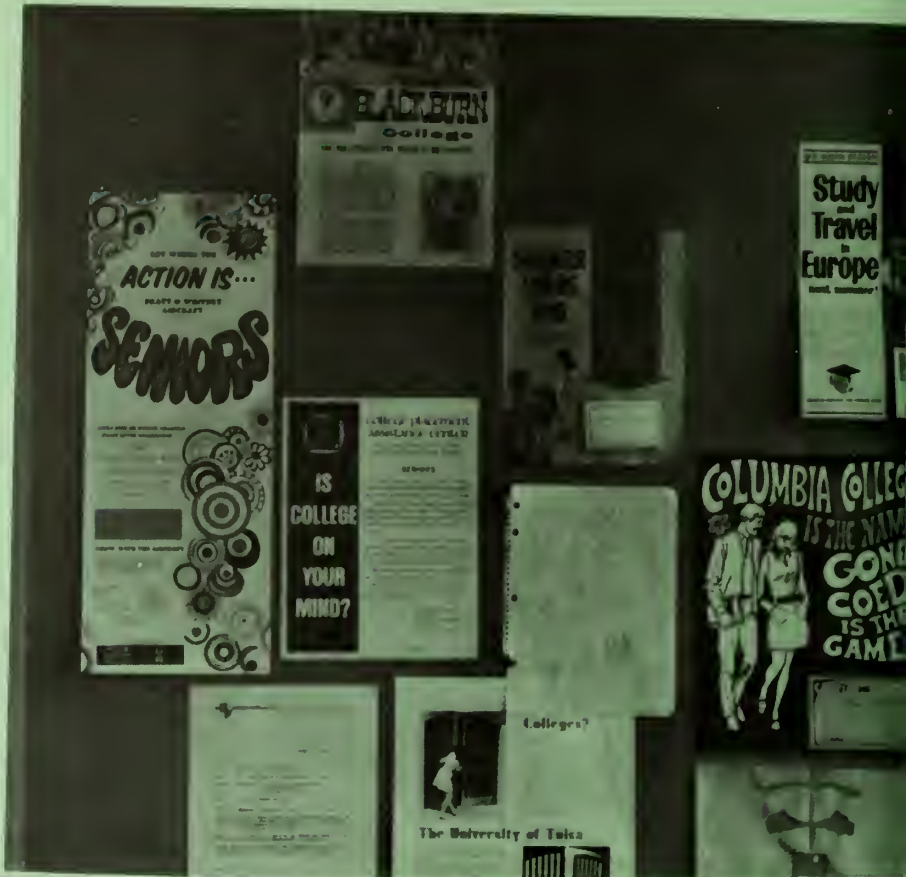

a fruitful philosophy of religion, of life, and of death presented in color photography and appropriate prose by mr. bob wright of the baha' faith

a man of the world takes time out from his travels as mr. larry murkies speaks of his sometimes humorous experiences with peoples of other nations, new guinea tribesmen in particular.

**rocking with the rave** — winter carnival enthusiasts turn-on to far-out vibrations at the student government sponsored dance.

**airborne to block a point**, michael donohue boosts freshmen spirit. despite such bounding enthusiasm, the juniors managed to crush the frosh contenders.

**seniors smash rivals in winter carnival activities  
juniors avenge loss in upset victory on field day  
sophs and frosh finish three-four on both days**

the big flex and a slashed single up the middle — miss diane tarrant gives her all for the hard-hitting faculty team, but a youthful student squad was victorious at field day antics. the practice-teacher squad did manage to salvage a victory over another student team.

so where's the cage ball? — juniors and seniors mix it up in an effort to move the "mini" cage ball downfield. in overtime play, the rugged juniors barely defeated the hardy senior team.

straining through the final seconds of the 440 relay, tom labadorf speeds in for a 57.9 time, and a sophomore victory.

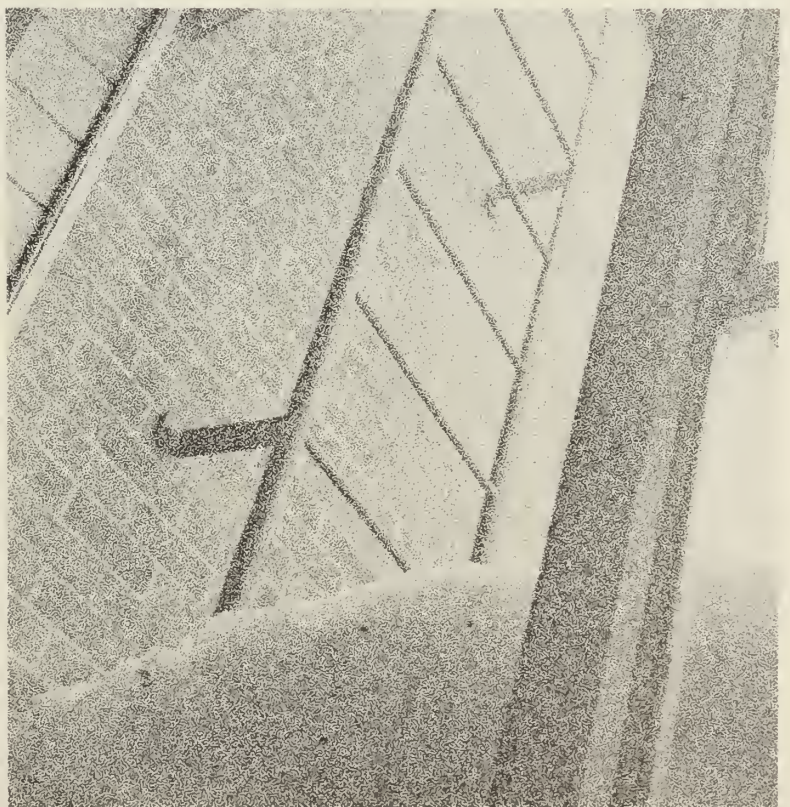

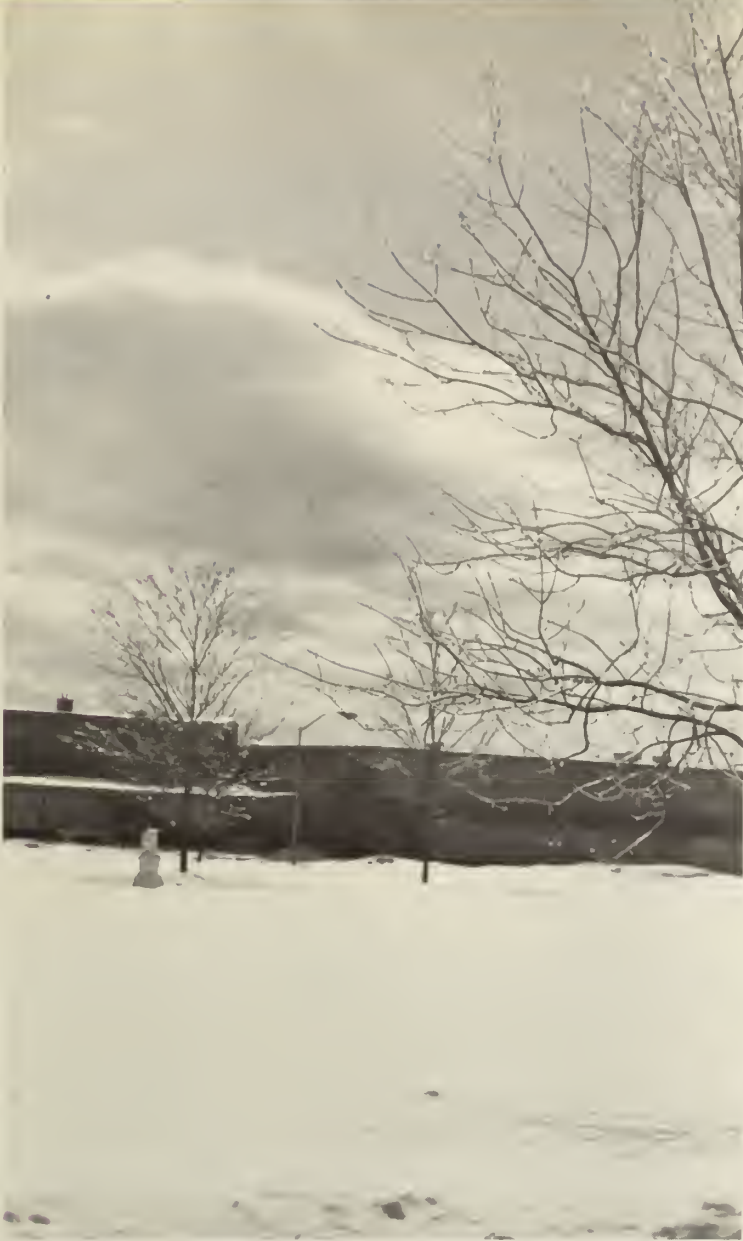

beauty is  
where you find it

**bicker-banter over breakfast**, with jim wilkins and martha heenan, leads into a comically-touching "do you love me?" duet from "fiddler on the roof".

**flashy leaps** highlight a fast-moving jazz interpretation of "hawaii five-o" by the versatile debbie anders.

**timeless wisdom** from a tuneful beauty — julianne mc cabe sparkles a thousand eyes with "you'll never walk alone".

# your show of shows: spartanum spectaculum 1970!

"washing and rinsing" the audience into gales of laughter is emcee rich malmstrom.

young man with a great future — jim wilkins leaves the females gasping with "love me tonight". there was many a moist eye as jim bade farewell to elhs audiences with "he" and a personal soliloquy.

no dissenters here as karalee shaw belts out "i enjoy being a girl".

"... a great world tragedy, and an even greater world hope." the inspirational silvermen present "bondage and freedom".

the **wow sound** of the pit orchestra, under the masterful direction of steve st. marie, brought continuous raves of applause after "do you know the way to san jose?" and "if my friends could see me now".

**all legs and talent** — the chorus line steps into the high-spirited "spartanum spectacular overture" choreographed by jean bonin.

a classical gas — julianne sambor stirs deep feelings with her nimble rendition of the cadenza from grieg's concerto.

the vamp, pat farrell, lures steve reed and those other 17 year old "men" from their too young girls in the captivating "sixteen going on seventeen".

the best this side of cornfield county, two gold nuggets — nina nascimbeni and charlotte merton — wail the miner's lament "oh my darling clementine".

## banquet gourmets wipe out ton of food in night of magic and madness

a master of wit, doug milroy aptly handles introductions, jokes, and appreciative applause for his talents.

a standing ovation for an outstanding man — the class of 1970 and members of the faculty salute the dedication of revolution '70 to mr. john katsoulis.

"shall we say, to whomever stole my chicken leg — that is against school policy!" principal — comedian bob clark evokes gales of laughter — and blushes.

**whispering warm words**, dave and pat dance to the beautiful sound of the prom theme "let it be."

**the crowning glory of a special night**, senior class couple jeff burton and adele archie are the reigning king and queen of the 1970 prom.

**an embarrassed silence** — junior attendants mary mitchell and steve fairbanks, and other court candidates, await the late-arriving king and queen.

## "let it be" — the evening of sights and sounds

smiles and welcomes are exchanged as the receiving line greets sparkling prom-goers.

**making memories** — cindy richards, sherri austin, and their dates turn on to "columbus sounds."

**hold that pose!** — john desroches and karen moodie pause for the roving yearbook camera before entering the prom.

**something of value** — a portrait, a lasting tribute to a good and dedicated man. senior class vice-president sue abel presents the class gift to tom thompson, 1970-71 student government president, in memory of mr. robert jarvis.

**yesterday . . . today . . . and tomorrow** — reflections of and for youth by the president of the class of 1970 debbie campanella.

**those last moments** of nervous excitement — class advisor mrs. adeline wilk offers sage advice on "the fainting procedure."

**"congratulations . . . daughter"** mr. emanuel tesoro, school board member, extends a parent's proud handshake and diploma to ann.

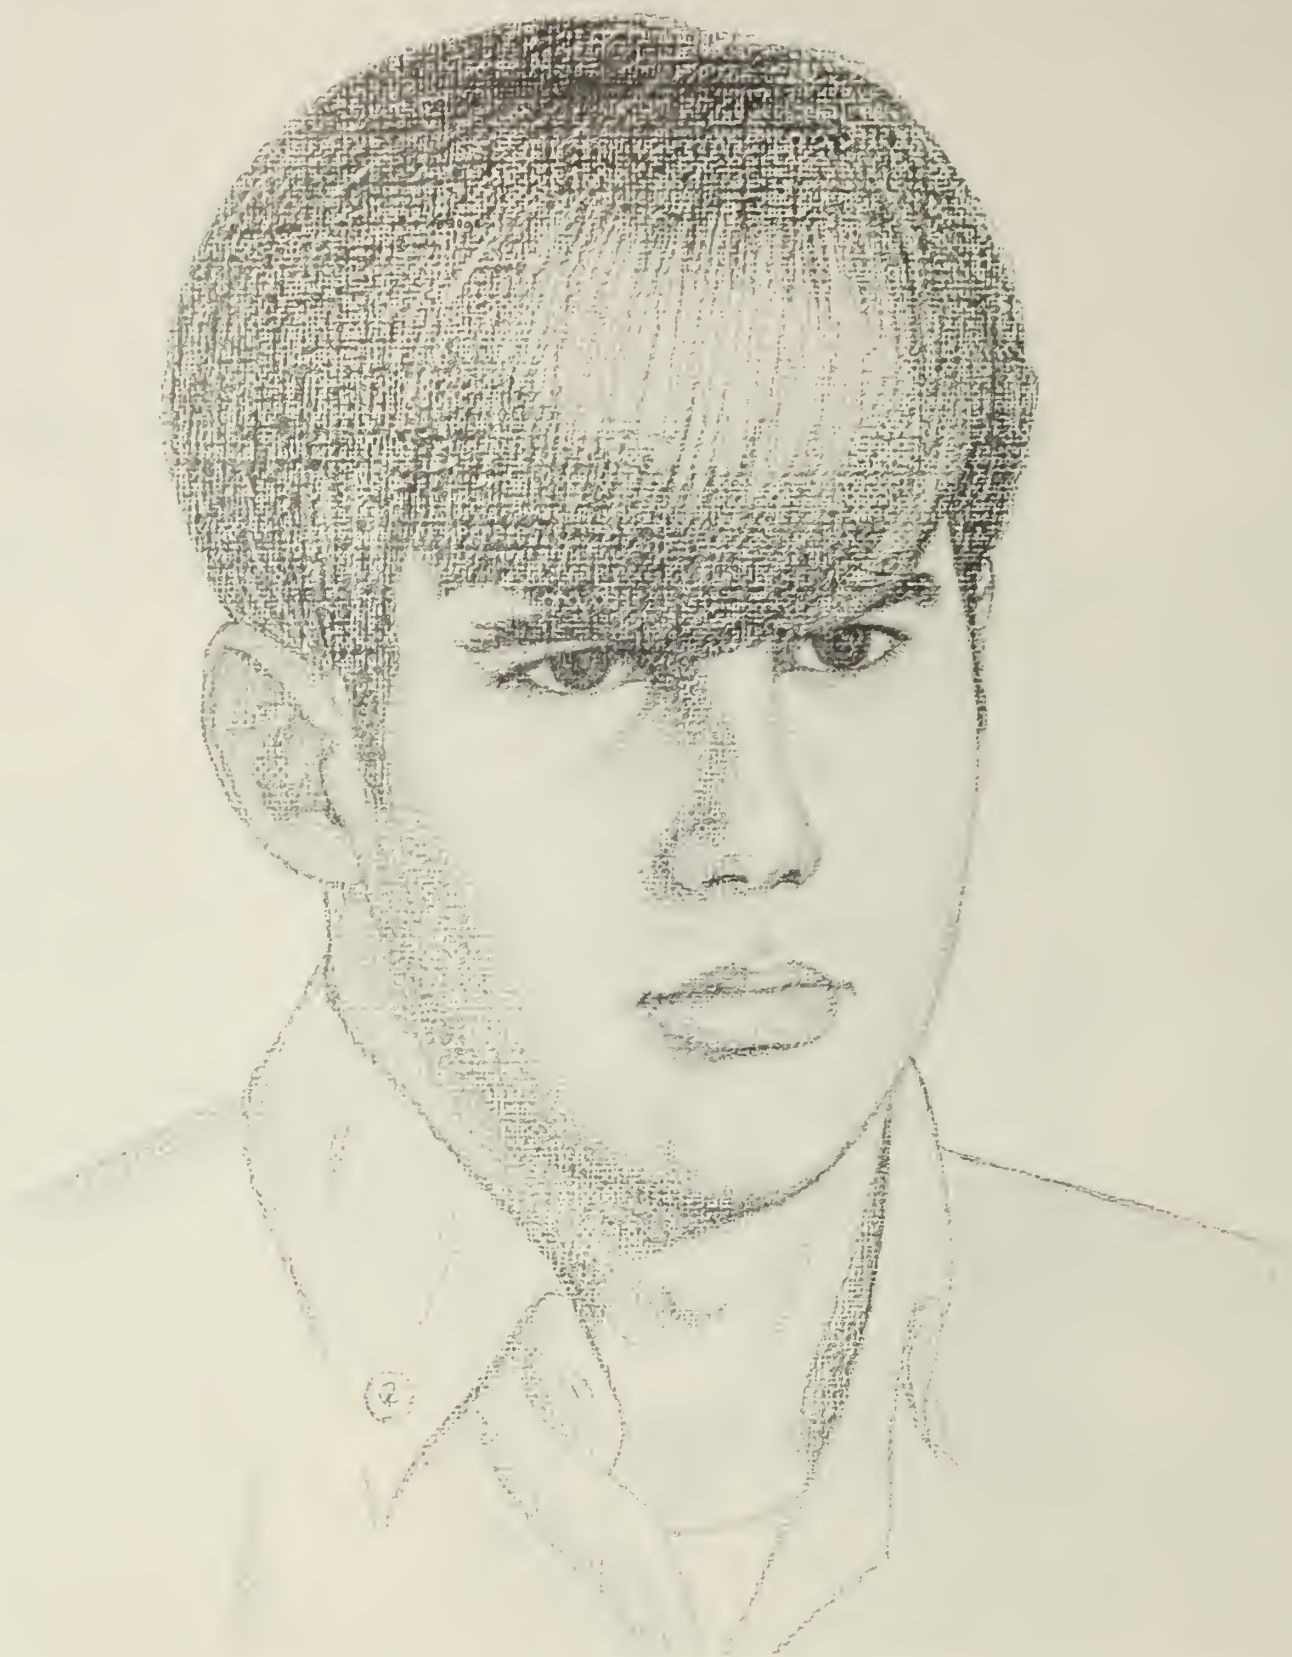

**“i love; therefore i am”**

— dr. le roy kendrew

**ralph nooney**  
**1952-1967**

. . . fondly remembered by his classmates

**robert jarvis**  
**1914-1970**

Although the morning was bright  
and gay,  
my mind was darkened by a message  
passed my way.  
A man I knew not very well had chosen his  
day to pass away;  
May his body and his mind be put  
pleasantly away,  
May his soul go on its way,  
To a place of  
Love  
and  
peace:  
The place of silence.

# wilkins, heenan lead laughs in "staircase"

"but you need me, j.j.!" sadie finch (martha heenan) makes a dubious proposal to a troubled j.j. mc habe (jim wilkins) as she attempts to ease his troubled mind.

"oh my stomach". a suicide attempt — panic! forget it. felix has already "lost his stomach" much to the relief of oscar, murray, the cop (dave smith) and his agitated friends.

# spotlighters' "odd couple" draws rave reviews

jim wilkins as felix, john stolecki as oscar are magnificently funny

"please don't call frances" — vinnie (steve st. marie), roy (ray mondoux), speed (mark willis), offer oscar and murray alternate solutions to felix's "tragic" problem.

"it's tension, i must be tense." close to the breaking point, felix ungar (jim wilkins) relaxes with a soothing massage from oscar madison (john stolecki).

mournful cooing, as the pigeon sisters, gwendolyn and cecily, (marilyn medbury and sue regnier) empathize with felix's reminiscences, while oscar bemoans the dampened atmosphere.

# The Story of the Gristmill

This is an overshot waterwheel, circa 1650. It has been built of solid oak, felled and sawed at the mill of George Huchins in Epsom, N. H. and scaled to one of the Saugus Iron Works waterwheels with no nails, screws or metal fasteners used in its assembly. The spokes are fastened to the hub by ship type wedges, giving them permanency of assembly. All parts and pegs are handmade. The bottom of the buckets comprising small pieces of oak were all angled and hand-fitted. This overshot wheel is based on a principle of gravity and simple leverage.
